A 5-month, CPD-certified programme of interactive webinars, mentoring sessions and coaching through real life scenarios

The course is structured around the **5T's Framework of ExtraordinaryPM**. Each month we focus on one of the 5T's over the 5-month duration of the **Mastery** Programme.

For each 'T' there are:

- Two teaching and Q&A sessions including tools and additional resources (weeks 1 and 2)
- Homework - putting the learning into practice through well thought out exercises
- A group mentoring session (week 4) to review progress and insights triggered by the homework exercises and also to discuss specific work challenges

There is a workshop at each end of the programme. In the first workshop we get to know each other and create the foundation for the learning experience of the **Mastery** Programme.

In the final workshop we consolidate the learning, share the areas of the programme which have had the biggest impact, and create a plan for on-going implementation of the **5T's Framework**.

Putting people & leadership at the heart of project delivery

Project management is all about making change happen. But we only see the true benefit of that change when people begin to think and act differently, and when we see great leadership and people skills at work. Because ultimately, people are the real difference between a project (or even a business) succeeding or not.

At the heart of our approach is what we call the **5T's Framework**, which is designed to enhance success in five interlinking key areas of delivery: **Target, Terrain, Tribe, Time** and **Thrive**. Simply put, it delves deep into the "Why" and "How" of project management, as opposed to just the "What".

Each 'T' acts as a stand-alone **ExtraordinaryPM** module, but the true power of the framework lies in your ability to apply the tools to meet the needs of your situation; to see a project from all angles, to be curious, and to combine techniques in the best way to achieve your end goal.

- Your **Target** is your 'North Star' for decision-making and prioritisation.
- The **Terrain** is the landscape and business context of your project's journey.
- Your **Tribe** goes far beyond the members of your project team. It is all those people you need to build connections with to achieve your target,
- **Time** is not simply time management. We focus instead on Time Mastery; being productive and balancing multiple priorities.
- Taking care of yourself so you can **Thrive** is often overlooked, but is crucial to your success. It's about making sure you're at your very best, and prepared for anything be that in a professional sense or in regards your own personal well being.

Our tried and tested approach allows you to focus on teamwork, staff engagement and collaboration. It demonstrates how project success is a direct result of strong leadership, engaged teams, clear outcomes and a consistent focus on business and customer needs.

ExtraordinaryPM fully integrates with tools like PRINCE2 and Agile, but what we do is very different. Where they focus on the technical aspects of the job, we aim to bring the human element firmly to the fore, addressing leadership and people skills as key ingredients of the overall project management mix.

The journey to extraordinary

At **ExtraordinaryPM**, we know that the best way to leverage skills and experience is by sharing our knowledge openly, allowing insights and expertise to multiply and ultimately benefit as many people in the profession as possible. To this end, we deliver a mixture of industry networking and speaking engagements, as well as regular webinars, articles and thought leadership pieces.

Our goal here is simple: to inspire and empower fellow project managers to excel in their careers, become respected leaders and ultimately take more pride (and pleasure) in their work!

Learning & Development

Central to our ethos is the provision of a number of learning and development options, equally suited to individuals or tailored for corporate clients.

From a one-hour **Insights** webinar through the **Bitesize** series of topics and themes, to the gold plated, five-month **Mastery** Programme, we take you on a journey of personal development – challenging and encouraging you to grow, think and act differently. We'll give you a safe space to experiment and stretch beyond your existing comfort zone, confident in the knowledge that we've always got your back.
