

ExtraordinaryPM[®] Mastery **Excellence through leadership**

An extensive and in-depth learning experience, specially designed to develop true project and programme mastery across your delivery teams

Putting people and leadership skills right at the heart of project management, ExtraordinaryPM's Mastery Programme will enhance project success in your organisation

ExtraordinaryPM's Mastery Programme works seamlessly alongside the other, more technical project management tools, dramatically improving your people's project, leadership and people management skills.

Our unique approach to training and mentoring will not only boost output and productivity but it will also develop your project managers into truly extraordinary leaders.

ExtraordinaryPM Mastery

Tell me more about this Programme?

Based on a robust and proven framework with real life scenarios, our Mastery Programme focusses on in-depth learning and mentoring support.

We teach your team members to master multiple tools and techniques, coaching them on how to successfully manage complex projects, real-world situations and everyday scenarios.

On this programme, we don't just show your people how to lead a project successfully, instead, we teach how to live and breathe them.

And we also train them how to get 20% more from their teams while doing so!

How does it work?

The course is structured around **ExtraordinaryPM 5T's Framework** - an innovative model specially designed to enhance success in the five key interlinking areas of delivery: **Target, Terrain, Tribe, Time and Thrive.**

- Each month we focus on one of the 5T's over the duration of the Programme.
- Sessions are run over a period of **5 months**
- Via a series of **interactive webinars, mentoring and coaching** session
- All **sessions are recorded** and made available to participants along with a **library of templates, tools and additional useful resources**
- Participants are encouraged to **put their learning and new skills into practice straight away**

Career enhancing learning

ExtraordinaryPM's Mastery programme is **accredited to provide 35 CPD points** and therefore also meets the required prerequisite for those participants wishing to apply for the

APM ChPP Chartered Project Professional Standard

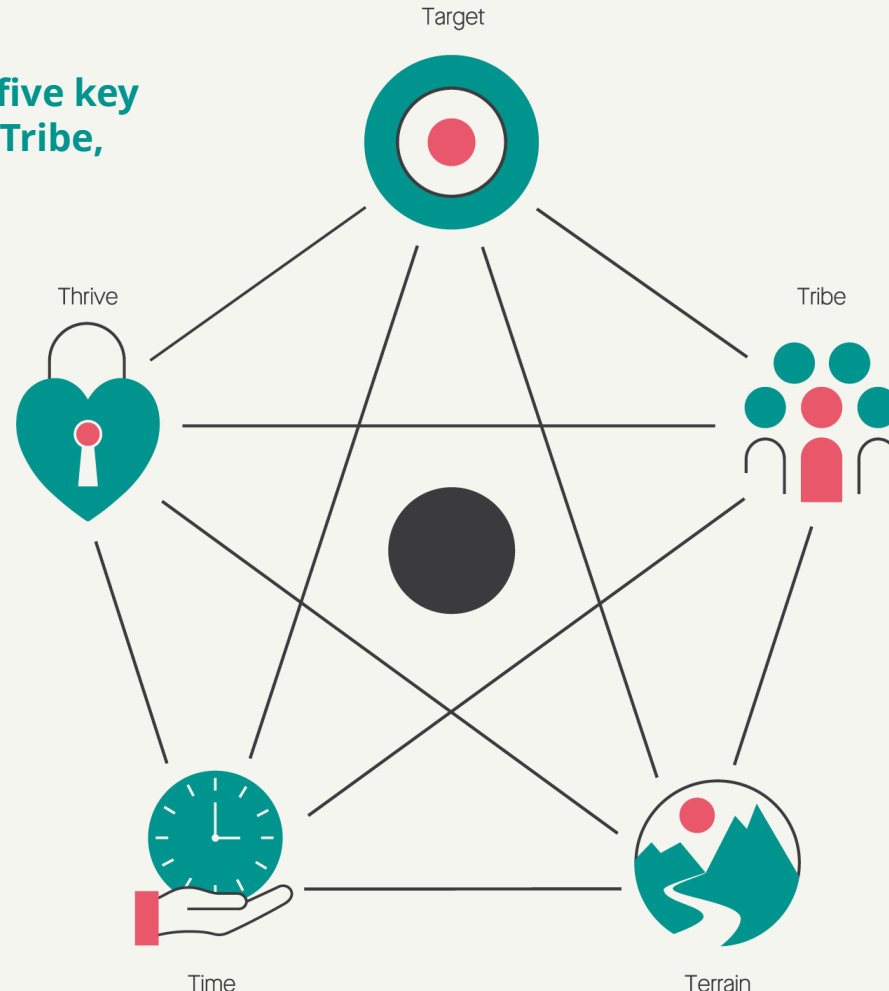

ExtraordinaryPM's 5T's Framework

The 5T's Framework is made up of five key interlinking areas: Target, Terrain, Tribe, Time and Thrive.

Simply put, it delves deep into the "Why" and "How" of project management, as opposed to just the "What".

Each 'T' acts as a stand-alone **ExtraordinaryPM** module, but the true power of the framework lies in your ability to apply the tools to meet the needs of your situation. To see a project from all angles, to be curious, and to combine a variety of techniques in the best way to achieve your end goal.

The 5T's Explained

- Your **Target** is your 'North Star' for decision-making and prioritisation.
- The **Terrain** is the landscape and business context of your project's journey.
- Your **Tribe** goes far beyond the members of your project team. It is all those people you need to build connections with to achieve your target.
- **Time** is not simply time management. We focus instead on Time Mastery; being productive and balancing multiple priorities.
- The last of the 5T's is **Thrive**. Taking care of yourself is often overlooked but is crucial to your success. It's about making sure you're at your very best and prepared for anything be that in a professional sense or in regards your own personal wellbeing.

The Mastery Effect

Past delegates have quoted the course as an **intense yet hugely transformational programme**, bringing incredible clarity to any given situation.

ExtraordinaryPM's Mastery Programme **benefits not only the individual and the team but also wider organisation itself**, enhancing project success on every single level.

ExtraordinaryPM's Mastery Programme is for those who truly want to master their skill set in project management; It is a journey of personal growth, development and empowerment

Mastery participants learn what to use, when and how to achieve the best effect:

- Thinking and language will change
- Confidence will be boosted
- Empowered to manage your teams better
- With a far greater understanding of the project, its scope, "The Big Why"
- A visible step change in levels of professional maturity
- And an ability to command the project more effectively; simultaneously looking "inside-out" and "outside-in"
- Your teams will be fully engaged with the wider business beyond the project team itself
- Inspiring the organisation to take ultimate ownership of the goal
- All of which leads to greater success in the delivery of the required tasks, goals and project

Participant Testimonials

"Our project managers are no longer just delivering projects; they are now also delivering real benefits to the business." AH

"Be prepared to have lightbulb moments that will provide clarity and improve your train of thought and attitude to everything around you." AM

"Doing Mastery is such an incredibly powerful experience! You are nurtured along, mentored, nourished, supported and hugely empowered through knowledge, learning and insight. It is challenging yet gentle all at the same time." ACB

"This is real life project management training." PN
